CREATION VS. EVOLUTION

Weakness of Evolution

I. Introduction

CREATION science

“... there is **no doubt** that living things have changed over time. How and why have living things changed? ... Today scientists **know** that the answers to these questions lie in the process of **evolution.**”

Evolution: Change Over Time

“Evolution itself has long since passed out of the field of scientific controversy. There is no other subject on which scientific opinion is so **completely unanimous**. It is the one great truth we most surely know.”

William Patten

“The diversity of life on earth is the outcome of evolution: an **unsupervised, impersonal, unpredictable & natural process of temporal descent with genetic modification that is affected by natural selection, chance, historical contingencies & changing environments.”**

EVOLUTION MODEL

- 1. Life by natural processes through chance**
- 2. Random mutations of genetic instructions**
- 3. Struggle for existence by natural selection**
- 4. Geological formations over billions of years**

Evolutionary Tree

**All things and all life
came by the acts
of a Creator.**

CREATION MODEL

- 1. Life by direct actions of a Creator**
- 2. Organisms as separate distinct creations**
- 3. Degeneration after Fall of man**
- 4. Geological formations by world-wide flood**

MUTATIONS

MUTATIONS

Sudden small changes in the DNA code of genes which are passed on to an organism's offspring

“It must not be forgotten that mutation is the **ultimate** source of **all** genetic variation found in natural populations & the **only** new material available for natural selection to work.”

Ernst Mayr

“It remains true to say that we know of **no way other than random mutation by which new hereditary variation comes into being, nor any process other than natural selection by which the hereditary constitution changes from one generation to the next.”**

CH Maddington

MUTATIONS

- 5. Persistence of Kinds**

“In any case, no real evolutionist, whether gradualist or punctuationist, uses the fossil record as evidence in favor of the theory of evolution as opposed to special creation.”

Mark Ridley

“The absence of fossil evidence for intermediary stages between major transitions in organic design, indeed our inability, even in our imagination, to construct functional intermediates in many cases, has been a persistent & nagging problem for gradualistic accounts of evolution.”

Steven Jay Gould

WHY EVOLUTION?

➤ **It is Man's best explanation leaving God out.**

➤ **If God is Creator, then all men stand accountable to Him.**

“Do you not fear Me?” declares the Lord. “Do you not tremble in My presence? For I have placed the sand as a boundary for the sea, An eternal decree, so it cannot cross over it. Though the waves toss, yet they cannot prevail; Though they roar, yet they cannot cross over it.”

Jeremiah 5:22

Yahweh, the Creator
